The "PLUS" version is now available in the escape block puzzle game "Pretty Girls Escape"!

Slide the blocks left and right in the stage to connect and then erase them, and guide the characters to the exit!

Nine beautiful girls from idol groups and athletics clubs have gathered in the game.

Clear the stages and collect the characters' costumes!

▼ Game Description

Pretty Girls Escape is an escape block puzzle game in which players must guide the character blocks to the exit.

Clear the stage by erasing connected blocks of the same color, and sliding the blocks left and right across the stage to guide the character blocks to the exit.

Various gimmicks appear in each stage to block the path of the character blocks.

Aim for a high score by erasing as many blocks at once with the least number of moves!

▼ Game Modes

Stage Mode:

There are 9 characters and 6 stages for each character. The difficulty level increases with each new stage. Points can be earned by completing the missions set for each stage. Use the points you earn to get new costumes from the exchange!

Challenge Mode:

This is a highly challenging mode that requires careful consideration of each move. There are 20 stages in total, and the difficulty level increases with each new stage. Aim to completely conquer all levels!

▼ Collect costumes of 9 beautiful women!

There are a total of 9 characters in the game!
New costumes can be changed in the dressing room.
All characters are voiced in Japanese.

▼ Freely take snapshots in the dressing room!

In the diorama mode, you can place multiple characters at the same time, change the placement of each character, change their expressions and costumes, and save/load the scenes you have created.

Stamps, such as hearts and other patterns, have been added to allow you to decorate your scenes.

Let's create your ideal scene and make snapshots!

At the beginning of the game, blocks are placed on the stage.

If there are blocks of the same color somewhere on the top, bottom, left, and right, you can erase the blocks by selecting them.

If the blocks disappear and there are blocks on top of the empty squares, the blocks will fall.

The more blocks you erase at once, the higher the score you can get.

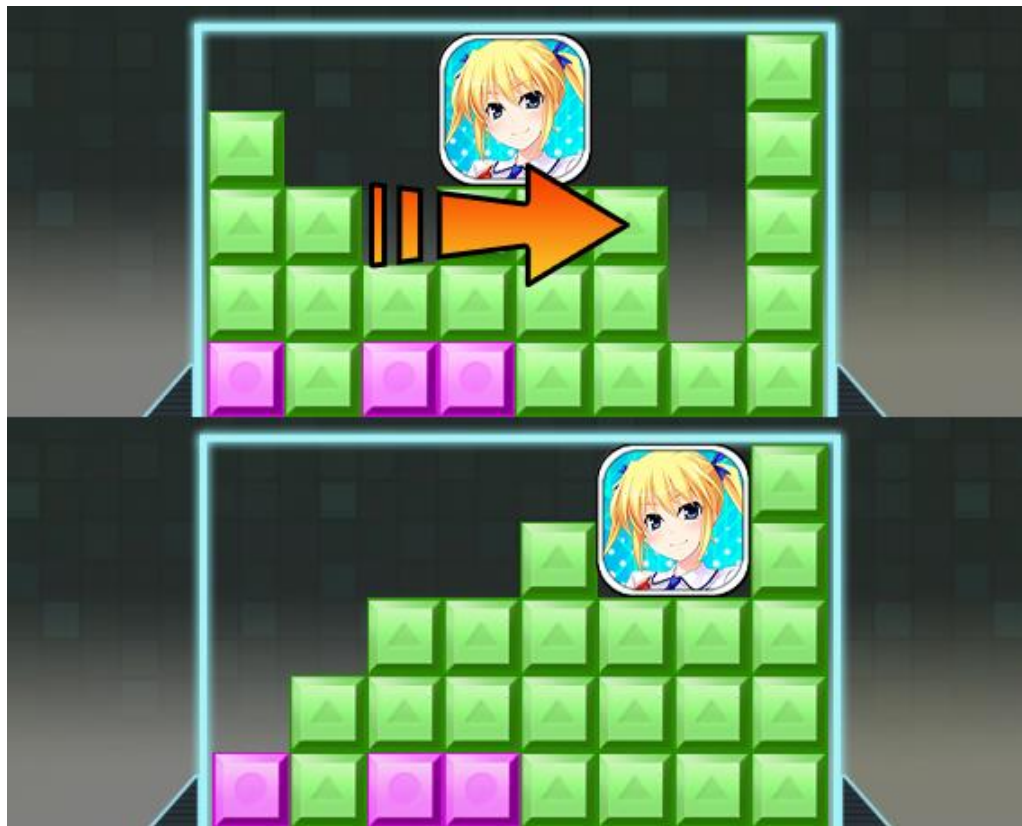

Rule

The blocks can be slid left or right.

When a slide is made, all blocks move in that direction.

After moving, if there is an empty space underneath, the blocks will fall.

You can use the slide as many times as you like.

You can clear the stage by placing the character block(s) directly above the exit.

Points are awarded when a stage is cleared.

Each stage also has a mission, and additional points are earned for completing the mission and clearing the stage.

The points earned can be exchanged for costumes and backgrounds that can be used in the dressing room.

*Points can only be earned once for each stage when clearing a stage or completing a mission.

The stage is cleared by placing the character block(s) adjacent to the two squares directly above the exit.

In some stages, the exit may be locked.

In such cases, the game will not be cleared even if the character block is adjacent to it.

To unlock the lock, place the key block adjacent to the top of the exit.

Block Types

(1) Normal block
If there are blocks of the same color somewhere on the top, bottom, left, and right, you can erase them by selecting them.

(2) Character block
The stage is cleared by placing this block adjacent to the top of the exit.

(3) Black block
An obstructive block that cannot be erased. They move together when you slide the stage.

(4) Wall block
A block that cannot be erased or moved by sliding.

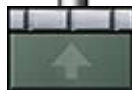

(5) Spike block
An troublesome block that cannot be erased. If it touches the character block(s), the game is over.

(6) Key block
A block that can unlock a locked exit. It must be moved directly above the locked exit in order to unlock it.

(7) Box block
An obstructive block that falls but cannot be moved by sliding. Each time an adjacent block disappears, the box block is damaged and can be broken after a certain amount of damage is inflicted.

(8) Piston block
A block that cannot be erased or moved by sliding. Every time the STEP changes, the piston expands and contracts. The block cannot pass through the place where the piston is extended. Also, if there is a block when the piston extends, the block is pushed out.

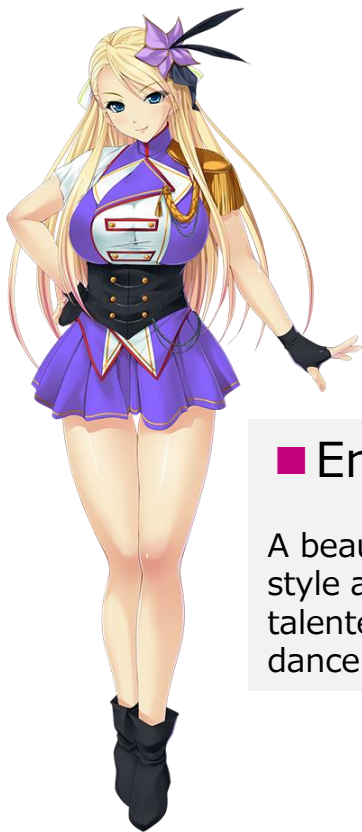

■ Akiko

Akiko is a calm and composed person, and is the older sister type who is relied upon by those around her. However, she also has a feminine side, as she is not good with insects and is mechanically inept.

■ Aoi

Aoi is reserved and quiet, and is often seen as a modest idol. She is good at singing, but not so good at dancing. She is weak at improvisation and not good at talking.

■ Erisa

A beautiful woman with a great style and good looks. She is a talented idol who can sing and dance well.

■ Megumi

Megumi is a motherly and kind-hearted older sister. She is not only kind but also strict and firm.

■ Risa

A beautiful coach who advises the track and field team. She is bright, vivacious, and well-liked by the athletes. She has been involved in track and field since her school days and is still passionate about coaching.

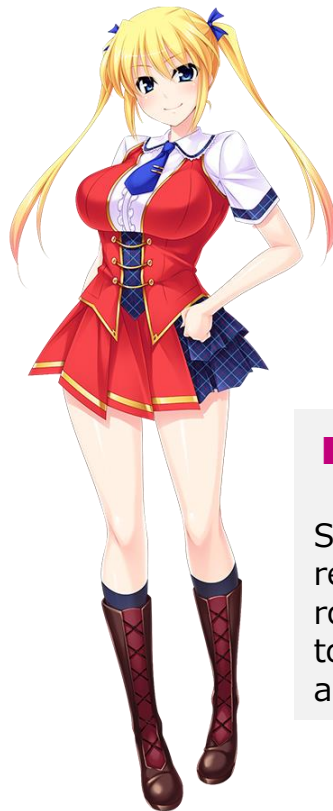

■ Ami

The ace of the track and field team. A perfectionist and hard worker, she puts her heart and soul into track and field.

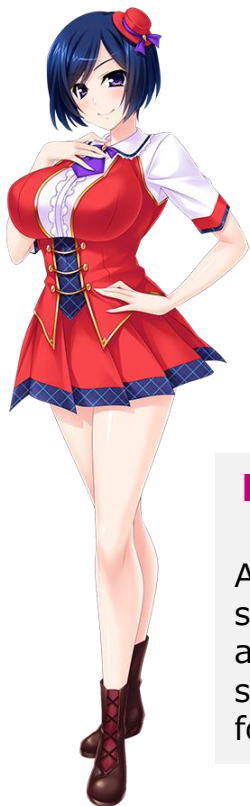

■ Sakura

The beautiful manager of the track and field club. She is not good at sports herself, but admires her coach so much that she became the manager.

■ Seira

Seira is a strong, serious, and responsible person who plays the role of everyone's big sister. She is too serious and formal, which she also worries about.

■ Ayari

Ayari is quiet and cool. Although she is a hard worker, she also has a lot of pride. She has a tsundere side to her that makes it difficult for her to be honest.
